

Bulk Storage Silo

Waste water

Drinking water

Air & smoke

Bulk Storage Polyester or steel Silo:

Sodimate integrated custom bulk storage silos made from polyester or steel and equipped with conical bottoms. They are the perfect solution to store dry powered reagents like quick-lime, hydrated lime, activated carbon among others).

With a storage capacity ranging from 7-100 m³ (and larger when requested), Sodimate can design a custom design, specific to customer needs.

Silos can be made with legs and a steel frame, with a skirt (to implement a room) or attached to a concrete pad.

Advantages :

- Custom made silos
- Exceptional thermal insulation performance
- On-site delivery and installation
- Huge storage capacity

aluminium or galvanised steel ladder with safety cage

Dust collector with pneumatic or electrical cleaning system

Pressure relief valve

Lifting lugs

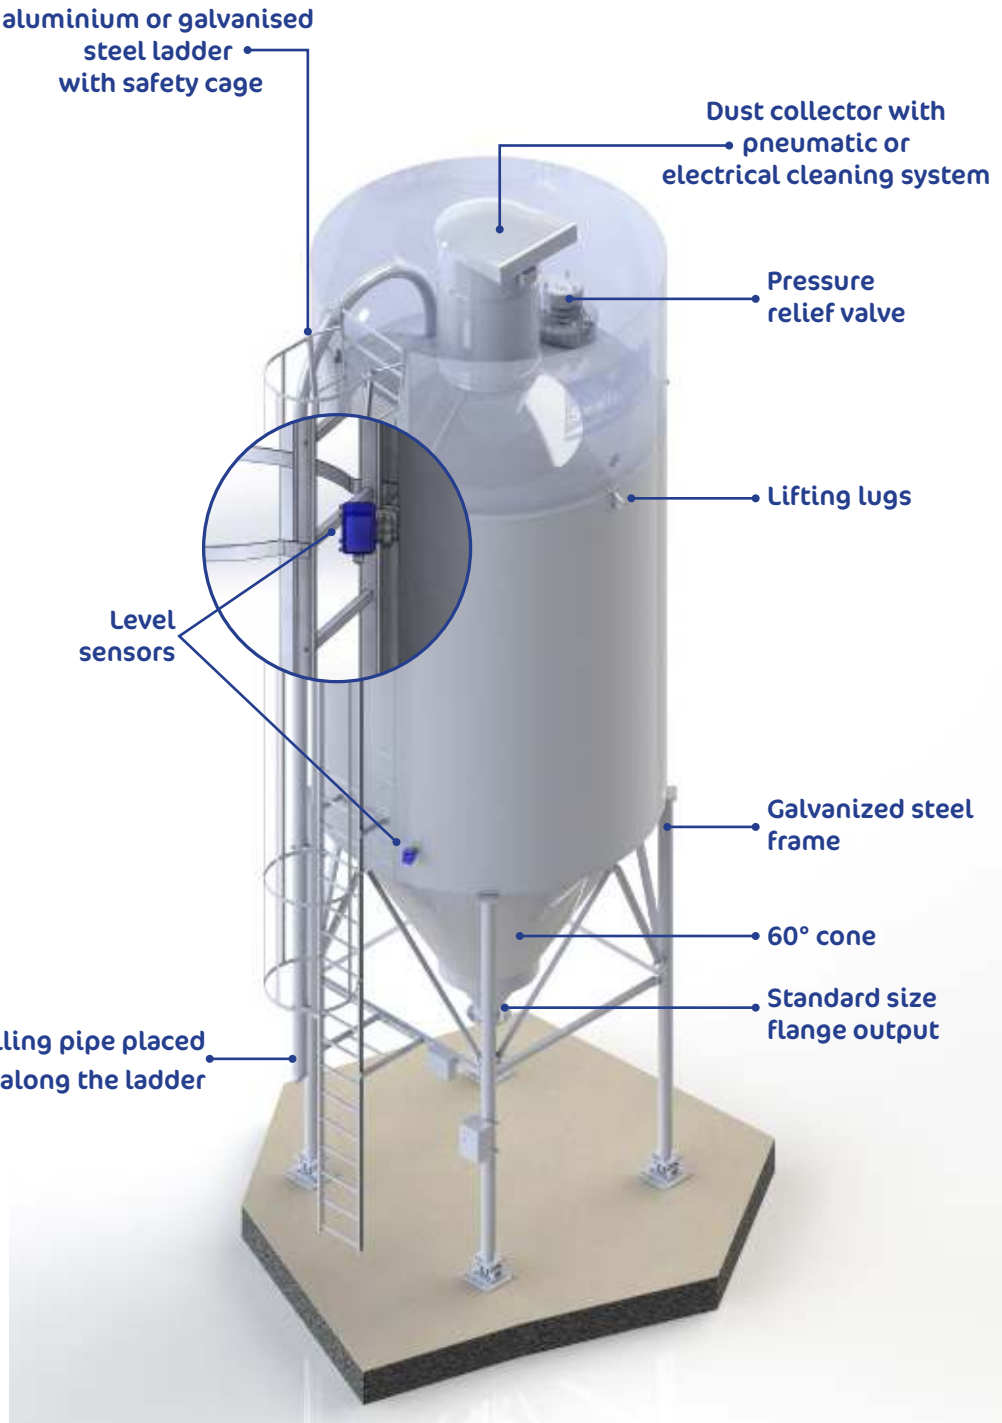

Level sensors

Galvanized steel frame

60° cone

Standard size flange output

Filling pipe placed along the ladder

Legged and Skirted silos:

Silo through a concrete ceiling:

Skirted silo:

*Height and capacity vary regarding the silo volume

Optionnal features:

- **Load cells**
- **Skirt** (room under the silo)
- **Assembly through concrete ceiling with roof sealing**
- **Junction-box at the lower level**
- **Heater** (for skirted silos)
- **Lighting** (for skirted silos)
- **Specific color**
- **Explosion proof vent**
